ELEVATION CERTIFICATE

FEDERAL EMERGENCY MANAGEMENT AGENCY NATIONAL FLOOD INSURANCE PROGRAM

ATTENTION: Use of this certificate does not provide a waiver of the flood insurance purchase requirement. This form is used only to provide elevation information necessary to ensure compliance with applicable community floodplain management ordinances, to determine the proper insurance premium rate, and/or to support a request for a Letter of Map Amendment or Revision (LOMA or LOMR).

Instructions for completing this form can be found on the following pages.

SECTION B FLOOD INSURANCE RATE MAP (FIRM) INFORMATION Provide the following from the proper FIRM (See Instructions): 1. COMMUNITY NUMBER 2. PANEL NUMBER 3. SUFFIX 4. DATE OF FIRM INDEX 1.5. FIRM ZONE 1.25144 0143 D 9-3-92 A 12 J,1 7. Indicate the elevation datum system used on the FIRM for Base Flood Elevations (EFE): NGVD '22 Other (des 8. For Zones A or V, where no BFE is provided on the FIRM, and the community has established a BFE for this building the community's BFE:	·

equation under Comments on Page 2.) 4. Elevation reference mark used appears on FIRM: Yes X No (See Instructions on Page 4)	at an elevation ce level from 7). ove or elow (check reference nown her (describe used on
 5. The reference level elevation is based on: actual construction construction drawings (NOTE: Use of construction drawings is only valid if the building does not yet have the reference level floor in place, case this certificate will only be valid for the building during the course of construction. A post-construction Elevation will be required once construction is complete.) 6. The elevation of the lowest grade immediately adjacent to the building is: 1 1 1 5 0 feet NGVD (or other FIRM) 	- Cerimodic
Section B, Item 7).	
SECTION D COMMUNITY INFORMATION	
1. If the community official responsible for verifying building elevations specifies that the reference level indicated in Sec is not the "lowest floor" as defined in the community's floodplain management ordinance, the elevation of the building floor" as defined by the ordinance is:	

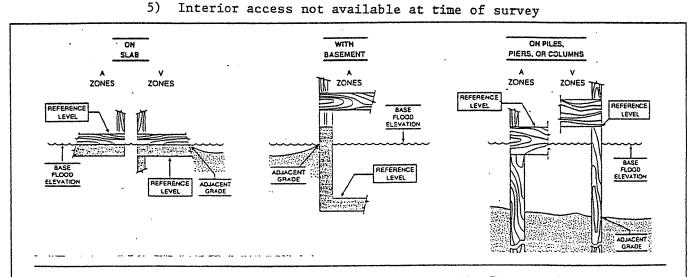

SECTION E CERTIFICATION

This certification is to be signed by a land surveyor, engineer, or architect who is authorized by state or local law to certify elevation information when the elevation information for Zones A1–A30, AE, AH, A (with BFE), V1–V30, VE, and V (with BFE) is required. Community officials who are authorized by local law or ordinance to provide floodplain management information, may also sign the certification. In the case of Zones AO and A (without a FEMA or community issued BFE), a building official, a property owner, or an owner's representative may also sign the certification.

Reference level diagrams 6, 7 and 8 - Distinguishing Features-If the certifier is unable to certify to breakaway/non-breakaway wall, enclosure size, location of servicing equipment, area use, wall openings, or unfinished area Feature(s), then list the Feature(s) not included in the certification under Comments below. The diagram number, Section C, Item 1, must still be entered.

I certify that the information in Sections B and C on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

The diagrams above illustrate the points at which the elevations should be measured in A Zones and V Zones.

Elevations for all A Zones should be measured at the top of the reference level floor.

Elevations for all V Zones should be measured at the bottom of the lowest horizontal structural member.
